

INTEgration of EU framework and policies in UA dimension Stone industry (INTEUAS)

Інтеграція рамок та норм ЄС в сфері індустрії блочного каменю в Україні

Erasmus+

Jean Monnet Activities

Co-funded by the
Erasmus+ Programme
of the European Union

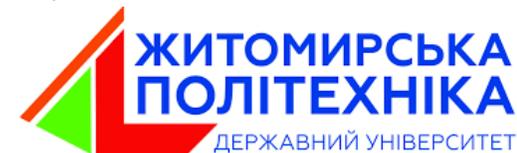

UA Dimension Stone Industry and Higher Education

- More than 300 DS deposits have been explored
- Zhytomyr region - about 100 deposits
- Proved DS reserves in UA amount to about 400 million cu.m., but only 200–300 thousand cu.m. are annually excavated (less than 0.1% of the proven resources) - more advanced quarrying methods/techniques and the DSI prioritization at the national level are required

DSI and Mining HE improvement:

- the Sustainable Development Concept introduction is required: integrate economic activity with environmental integrity, social concerns and effective government systems
- human “resources” must have a high and wide range of skills, not only technical, but also in the field of mineral resource management, environment protection, be aware of current EU and national legislation and opportunities to influence it

Project content:

Project duration – 36 months (10.2022-09.2025), 592 contact hours
Grant from the EU: 30000 euro

✓ **3 Modules** (1 new and 2 modernized) for Mining students:

1. "*Opencast Mining*"
2. "*Finishing Stone Working and Shaping*"
3. "*International Activity in the Dimension Stone Industry*" (new)

✓ **Summer School “European Integration of the UA Stone Industry”** for external experts

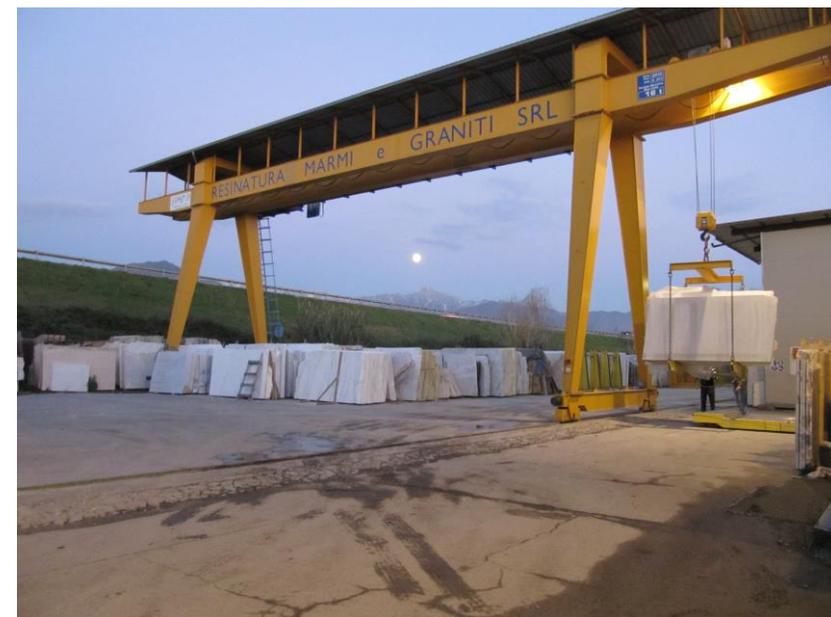

✓ **Winter School “UA MineCraft: Let`s produce stone in a European way!”** for schoolgoers/youth

✓ **Conference Section “European Studies in the field of Mining and Ecology”** intended to European research in DSI
